Technical Session -II by Dr. M.S.R. Anjaneyulu

The Speaker Dr. M.S.R. Anjaneyulu talks about Fintech to Bigtech: Exploring Innovation in Financial Services. Fintech, bigtech, algorithms, machine learning, and digitalization are rapidly transforming the financial services industry. These innovations hold the promise of increasing financial inclusion for the benefit of individuals, businesses, and the overall macro economy. Fintech

refers to digital technologies that have the potential to transform the provision of financial services spurring the development of new - or modify existing - business models, applications, processes, and products. In practice, the term "fintech" is also broadly used to denote the ongoing wave of new DFS. Examples of these technologies include web, mobile, cloud services, machine learning, digital ID, and application

programming interfaces (APIs). Examples of fintechs include digital payment providers (eg PayPal), financial infrastructure/connectivity providers (eg Plaid), digital insurers (eg BIMA, Policy Bazaar), peer-to-peer lending platforms (eg Afluenta, Funding Circle, Investree). A big tech firm is a large company whose primary activity is digital services. Examples of big techs include online search engines, social media platforms, e-commerce platforms, and mobile network operators.

Convener Speech

The opening remarks and introduction of the national seminar were given by Dr. P. Ramulu. He was discussed for the seminar received 84 abstracts from students and faculty members from various colleges. He highlighted the Department of Mathematics and Statistics holding mathematics competitive exams that are useful for PG entrance and IIT, CSIR, and other government exams since 2012, on the occasion of Ramanujan's birth day. From 2022 onwards, the department of mathematics will offer the MVS Mathematics Meritorious Scholarship (MMMS) and also briefly explain the main theme of the National Seminar.

He talks about Mathematics serves as the universal language of science, providing the tools and frameworks for understanding complex phenomena, formulating models, and solving intricate problems. Today, we delve into the diverse applications of mathematics across scientific domains, ranging from physics and engineering to biology and finance. In the realm of physics and engineering, mathematical methods such as differential equations, numerical simulations, and optimization play a critical role in modelling physical systems, predicting behaviours, and designing efficient technologies. From the dynamics of celestial bodies to the optimization of industrial processes, mathematics serves as a cornerstone of scientific progress. Furthermore, mathematics plays a pivotal role in finance, economics, and data science, facilitating risk analysis, financial modelling, and predictive analytics. Quantitative methods enable informed decision-making in investment strategies, market trend analysis, and business optimization, driving economic growth and stability.

TECHNICAL SESSION -II BY Dr. K. Phaneendra

The Speaker Dr. K. Phaneendra Talks about the applications of differential equations and their real-life applications in daily life. The applications of differential equations are vast and diverse, spanning from fundamental physics to complex biological systems, economic models, and beyond. They provide a powerful framework for

modelling and understanding dynamic phenomena, making them indispensable in scientific research, engineering design, and decision-making processes. Differential equations are essential in control theory for designing and analysing feedback systems. They describe the behaviour of dynamic systems under control, such as in robotics,

aerospace engineering, and industrial automation. Differential equations play a crucial role in fluid dynamics, describing the motion and behaviour of fluids such as liquids and gases. Climate change models often rely on conjectures about future greenhouse gas emissions, feedback loops, and global temperature responses. Ongoing research aims to improve the accuracy of climate projections and inform policy decisions.

ఎం.ఎ.ఎస్ ప్రభుత్వ ఆర్ట్స్ & సైన్స్ కళాశాల (ఎ) మహబూబ్ నగర్ :

ఉన్నత విద్యారంగంలో పాలమూరు జిల్లాలోనే ముకుటాయమానంగా వెలుగొందుతున్న విద్యాసంస్థ. సమాజ హితైషులు, మహనీయుల కృషి ఫలితంగా

1965లో పురుష పోస్టుకున్న విద్యాకుసుమం మన మహబూబ్ నగర్ విద్యాసమితి, జూలై 1965లో ప్రైవేటు విద్యాలయంగా 2nd హోదాలో నడికను ఆరంభించింది, జూన్

1972లో 12th హోదాను సంతరించుకుంది.

తన పరిధిలో ఉత్తమ విద్యా సేవలకు గుర్తింపు గా Oct-1979లో ప్రభుత్వ కళాశాల గా

కొత్త పాఠశాలను అందుకొంది, ఉస్మానియా విశ్వవిద్యాలయం అనుబంధంగా కొనసాగి, 2012 నుండి పాలమూరు విశ్వవిద్యాలయం అనుబంధ కళాశాల గా

కొనసాగుతుంది. 2015-16 నుండి స్వయం ప్రతిపత్తి హోదాలో సమర్థవంతంగా నడుస్తుంది.

నేడు కళాశాలలో 27 స్నాతక స్థాయి కోర్సులతో, 07 స్నాతకోత్తర స్థాయి కోర్సులతో మని విశ్వ విద్యాలయ వాతావరణంలో ముందుకు సాగుతోంది.

గోసాయి దృఢదాపతి తెలుగు విభాగం :

కళాశాలతో పాటే తెలుగు విభాగం ఆరంభమైంది. తెలుగు సాహిత్యంలో పేరెన్నకగన్న అధ్యాపకులు ఇక్కడ సేవలందించారు. ఎం.ఎ తెలుగు కోర్సు కూడా నిర్వహించబడుతుంది. నేడు 12th మంది అధ్యాపకులతో కొనసాగుతోంది. వారిలో 5 మంది డాక్టరేట్ పొందిన వారు. మిగిలిన అధ్యాపకులందరూ NET/SET అర్హత పొందిన వారే, వీరంతా అధ్యాపన, పరిశోధనలో మంచి అనుభవం పొందిన వారు. 29.03.2019 నాడు ఒకరోజు జాతీయ సదస్సు నిర్వహించబడింది 19.02.2020 నాడు ఒక రాష్ట్ర స్థాయి కార్యశాల (ఆధునిక తెలుగు కవిత్వం) కూడా నిర్వహించబడింది.

కార్యశాల: ఈ కార్యశాలలు విద్యార్థుల్లో ఉన్న సృజన శక్తులకు ఉత్తమస్థాయి, మెరుగులు దిద్దుతాయి. అధ్యయనం, పరిశోధన, సమీక్ష, నివేదికల సైనిక యాత్రగానూ నను కల్గిస్తాయి. ఉన్నత విద్యామండలి మూడవ సంవత్సరం విద్యార్థుల పాఠ్య గ్రంథంలో లభ్య కవితా రూపాలను పొందుపరిచింది. అందులో వచన కవితా రూపం ఒకటి. దీనిలో మొలకువలు విద్యార్థులకు ఒంటబడితే వారి సృజనకు పరును పెట్టుకున్నట్లుగా ఉంటుందని **వచన కవితా (Free verse)** కార్యశాల కు మేము సంసిద్ధతను తెలిపాం.

Report on seminar has divided into two parts one is pre-seminar activity and another part is during the seminar. In pre-seminar, the Department of Economics has requested the principal to give permission to organize the seminar and we got the permission and started the work. From outside the college, one philanthropist namely, V Krishna, CEO, KEA Infra Developers Ltd, a Real Estate Company, Mahabubnagar, supported financially to the seminar. Then after, we made a brochure for the seminar and it was released by L.B. Laxmikanth Rathod, Hon'ble Vice Chancellor of Palamuru University, Mahabubnagar on 19th February, 2024 in his chamber. About 106 students from 21 teams from various colleges across the Telangana State have registered for the seminar. And we received 21 research papers from them till 27th February 2024.

On the seminar day, convener, S Sivaprasad invited the following dignitaries on the dias Smt. Dr. K. Padmavati, principal as chairperson; Prof. G Yadagiri, as Chief Guest; Dr. Gulam Hussain, Associate Professor of Economics as Keynote speaker; Nagendra Kumar Swamy as alumni of the college; Dr. M. Mallikarjun as organizing secretary of the seminar and student speakers namely Chandrakanth, Spandana and Ramsha Begum.

Dr. K. Padmavati, Principal of M.V.S. Govt. Arts & Science College (Autonomous), Mahabubnagar as chairperson of the seminar addressed the gathering. In her speech, she spoke the importance and relevance of the current seminar. Dr. K. Padmavati, Principal of the college explained the background of the seminar in her welcome address. She spoke that “the department of economics is conducting state level students’ seminar in the state first time”. She said that “we are facing many economic problems that should be overcome by making suitable policies”. Students

should study not only subject in the class room but also get some experience in the field by applying the subject knowledge. Finally, she expressed her gratitude to the organisers of the seminar.

Chief Guest of the seminar, Sri. Prof. G. Yadagiri, Joint Director, O/o Commissionerate of Collegiate Education, T.S., Hyderabad inaugurated the seminar and addressed the gathering. He felt very happy and appreciated the organisers. In his speech, he told that India is one the developing countries in the world, he believed that it is going to become super power country in the near future. Economics subject is most important to understand the economic status of our economy and students have to study

the subject with application mode. Also he said that students have to read newspapers daily and watch what is happening in their locality and in the country. He requested the organizers to conduct this type of seminars frequently which encourages the students in writing articles.

Dr. Gulam Hussain, Keynote speaker of the current seminar, in his address, he explained the differences between African economic system and Indian economic system. In the african countries, there were less development in education, health and other infrastructures. People in the african countries respect the Indian education system, culture, heritage etc. Our country is facing many problems like inflation, unemployment, income inequalities, shortage of food grains etc. “Economists should give solutions to overcome those problems and make the country developed and higher income country on the international diaspora” he added. Methodology of calculating poverty and employment should be updated and modified time to time. He also spoke that poverty means not only lack of minimum needs but also lack of nutrient food, safe air, clean environment etc., Those people who are unable to get 2500 and 2100 calories per day per head in rural and urban areas respectively are being called below poverty line people. He appreciated the organizers who conducted this type of seminars which belongs to especially students. Nagendra Kumar Swamy, alumni of this college, work at NGO, Mahabubnagar, also attended in the seminar, he said that money is so important in the world but with money we can't do anything. He appreciated the students who are participating and presenting the articles in the seminar.
